REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:
2. Claims 1-3 and 5-16 are allowed. Claim 4 has been cancelled.
3. The base claims of the application are claims 1 and 16. They can be summarized as follows:

Claim 1 covers a film made from a thermoplastic mixture that comprises a microdisperse distribution of: a) a thermoplastic starch (derivative) or a combination of starch and starch derivative, and b) a polyester urethane, with the weight ratio of a:b being from 75:25 to 5:95, wherein the area-based drawing ration of the film is 2 to 70 and the urethane contains alternating hard and soft segments.

Claim 16 covers a film made from a thermoplastic mixture that comprises a microdisperse distribution of: a) a thermoplastic starch (derivative) or a combination of starch and starch derivative, and b) a polyester urethane, with the weight ratio of a:b being from 75:25 to 5:95, wherein the area-based drawing ration of the film is 2 to 70.

4. The prior art of record fails to teach or suggest films having all of the features of claims 1 and 16.
5. The examiner finds applicants' arguments, as recited on pages 5-7 of their 01 July 2004 response, and especially the arguments concerning microdispersion in the first full paragraph on page 6 thereof, persuasive. Accordingly, the 35 USC 103 rejection of claims 1-16 over DD 247830A in view of Lorcks (US 6,096,809) is withdrawn in view of those arguments.

6. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
